

The HCTV is a large capacity, cost-effective solution for the user who works with high volumes of fine dry particle debris. The HCTV is designed for in-house servicing by Copier/Printer Technicians, Laser Cartridge Re-manufacturers, and Abatement Contractors.

The HCTV comes with standard 0.3-micron, 5-gallon, re-sealable, disposable filter canister. The 0.12-micron HEPA filter canister and special tools are available on the Abatement models.

Each HCTV comes complete with a disposable filter, tools and attachments.
