Omega Supreme Electronic Vac: Atrix Part # VACOMEGASLF

The Omega Supreme Electronic Vac is the quiet one. 10% to 20% quieter than the other service vacuums on the market today. The Omega Supreme Electronic Vac is ESD safe from tip to tail featuring conductive path to ground and statically controlled hose and utensils for service on sensitive electronic equipment. The in-line AC filter suppresses EMI /RFI noise transfer on the AC line during operation. This feature prevents destructive electrical noise from reaching sensitive data and communication-processing equipment. Major manufacturers like Hewlett Packard, Raytheon, Konica, Pitney Bowes, and ADC Telecommunications currently use this service vacuum.
